Founded by artists in 1990, the Kentler International Drawing Space has given New York exposure to over 900 artists from around the country and around the world. The Kentler presents shows of important contemporary drawings and work on paper by emerging and under-recognized American and international artists and works energetically and creatively to integrate these shows into the cultural fabric of the community. We encourage dialogue and interaction between exhibiting artists and the public while providing artists with the opportunity to experiment, explore and expand the definition of art in society.
